Note: We have included the AFCM 30th Anniversary video to familiarize your students with AFCM. We believe it will be a benefit to them to see what they are a part of.

You do not need to follow the order exactly, EXCEPT please show *Basics of Faith* by Dr. Jim Kaseman first, then *How to Study and Interpret the Bible* by Rev. Tony Cooke as the 2nd course. If new students join after school has begun, they need to start with *Basics of Faith* and then join the other students.

Some courses include a review sheet, others do not. If instructors did not provide a review sheet or an outline, students are encouraged to take their own notes. If an examination is not provided for a course, students may write an essay on the course subject. For *Permission Evangelism* by Pastor Todd Rowen, students are encouraged to practice what they have been taught and perform a “permission evangelism” on someone in lieu of an examination.

***Please note that some classes may change or be added to modules. Please check with our office for the most current curriculum.**
